SUBJECT No. 362.

A fresh channel from Alalukatti anikat.

Mr. Undavadi Narasinga Rao, Hunsur taluk.

Summary of discussion.—From the Alalukatti anikat, the northern channel is in full working order. It was originally intended to draw a channel on the southern side for which survey and other preliminaries were completed. If this is completed, it will bring under irrigation a very large extent of land in several villages both in the Yedatore and the Hunsur taluks. The channel should be extended by at least two miles.

Reply of Government.—Noted. Will be enquired into.

SUBJECT No. 363.

Channel repairs.

Mr. M. Subba Rao, Heggaddevankote taluk.

Summary of discussion.—The southern channel drawn from the Karigala tank is not in good condition and as such water-supply in the channel is not satisfactory. It is prayed that the channel be repaired well and water-supply regulated.

Reply of Government.—Noted.

SUBJECT No. 364.

Extending the Chikka Devarajasagar Nala.

Mr. Rangachar, T.-Narsipur taluk.

Summary of discussion.—It is prayed that the Chikka Devarajasagar Nala be extended beyond Bannur tank as it will be very profitable to Government. At least 3 or 4 miles of channel may be dug every year.

Reply of Government.—Noted.

SUBJECT No. 365.

Raising the Madhavamantri anikat in Talkad.

Mr. Sivabasavadevaru, T.-Narsipur taluk.

Summary of discussion.—It is prayed that the Madhavamantri anikat be raised by one foot or a foot and a half to save the annual expenditure of raising the same by means of gunny bags filled with sand to store enough water for the Sivasamudram power and light works. By this the extra water may be given to ryots for sugar-cane cultivation.

The Ramaswami channel may also be extended by four furlongs.

Reply of Government.—Will be referred to the Public Works Department for investigation.

SUBJECT No. 366.

Extending the Hemagiri and Mandagere channels.

Messrs. Krishnasastri, Yalakki Gowda and Somasetti, Krishnarajpete taluk.

Summary of discussion.—Since 1891 the question of extending the Hemagiri and Mandagere channels is under correspondence. The extension will be profitable both to the ryots and to Government. It may be done early. There are several lands fit for wet cultivation under the Hemagiri channel. These may be given in exchange for lands that will be submerged by the Kannambadi project by extending the channel.

Reply of Government.—Will be considered after the details of the Kannambadi project are settled.

SUBJECT No. 367.

Repairs to Hiduva tank.

Mr. Gundappa, Nagamangala taluk.

Summary of discussion.—It is prayed that the Hiduva tank be repaired for the benefit of the people. It will be profitable to Government also.

Reply of Government.—A project for the work is under consideration in the Public Works Department.
